

Our Westfalenfinanz

Our Westfalenfinanz is exclusive and independent M&A Boutique in Germany. This is something we want to maintain. Therefore we only accept a limited number of the projects we solicit or that are offered to us. Even then, we only take on projects to which we are convinced that we can add value. Our small team consists of experienced [M&A-experts](#) who know and value the German Mid Cap market. Our personal experience has given us an in-depth understanding of these mid-sized companies and we can access investment opportunities for our clients.

Our promise

Working with Westfalenfinanz, guarantees our customers that each project will be carried through at the partner level from start to finish and there is only one contact person for all involved. We deliver [transaction advisory services in Germany](#) at its best. This approach is contrary to that of investment banks or other consulting firms where experienced staff are responsible for project acquisition only and delegate the execution to junior consultants.

Our motivation

Of the many M&A consultancies catering for the German Mid Cap market, only few can deliver the promise of this description. In our experience, these consultants are either former investment bankers who only have as rudimentary understanding of the structures of German mid-sized firms or professionals from such firms who in turn only have a limited grasp of the various aspects of a professionally handled corporate transaction. Westfalenfinanz was founded in order to bridge this gap. We combine expertise, pragmatism and the ability to close a deal. We offer tailor-made services in the German M&A market as needed by mid-sized enterprises.

Press and news

We offer a wide selection of relevant news and studies on the German mid cap market. However, most of these pieces of information are in German language therefore please change to the [German version](#).
